Applications of Innovative Industries Policy & IoT System

Taiwan's advantage in Intelligent System

Taiwan has the advantage in developing AI/smart system with supporting policies, intellectual and complete industrial cluster. With the government supporting, Asia Silicon Valley Development Plan as an integrated platform is intended to guide the transformation of Taiwan innovative economy. The plan establishes an IoT Industry Major League team, led by manufacturers such as Acer, Advantech and Mediatek with over 400 businesses and startup companies forming an industry ecosystem.

- Bicycles
- Machine Tool
- Orchid

- Super Yachts
- Automobile Electronic

- Biomedicine
- Automobile Parts & Accessories

- Green Energy
- Fastener

Taiwan is the main base for R&D and production of functional textile. Now, Smart Textile is one of the developing priorities.

Taiwanese enterprises have a long collaborative relationship with multinationals. It makes Taiwan become a producer of upstream medical devices and a key link in the global supply chain.

These clusters make Taiwan the "go-to" location for procurement and design.

The export amount of sporting goods sector reached US\$ 1.9 billion in 2018.

The A-Team (a team comprised of 20 bike and parts companies) has created innovative new products with high quality.

Taiwan is one of the top exporting countries for machine tools.

Perfect growing environment, advanced breeding method and patent protection enhance the competitiveness of the orchid industry.

The success of Taiwan's yachts rests on three main points: high building skills, superior craftsmanship and customized solutions.

The auto electronics industry of Taiwan is founded on the strengths its well-developed ICT and auto parts industries. In 2018, the auto electronics industry reached an output value of US\$6.6 billion.

Innovative medical devices and new marketing models driving and forming a complete production and service ecosystem.

The auto parts industry has the capability of providing original equipment (OE) and after market (AM) service to global supply chain.

The Photovoltaic industrial cluster development encompasses the complete supply chain.

Production accounts for 30% of all fasteners internationally and is exported to over 140 countries.

The symbol of Taiwan Excellence honors Taiwan's most innovative products that provide tremendous value to users worldwide. All products carrying this symbol have been selected for specific Taiwan Excellence Awards based on their excellence in design, quality, marketing, Taiwanese R&D and manufacturing. Initiated by the Ministry of Economic Affairs (MOEA), R.O.C. in 1992, the symbol of Taiwan Excellence is recognized by 102 countries.

Bureau of Foreign Trade (BOFT), MOEA

The Bureau of Foreign Trade (BOFT) under The Ministry of Economic Affairs (MOEA), R.O.C. is responsible for implementing policies and regulations governing foreign trade and economic cooperation. Established in January 1969, BOFT's role and position have been adjusted regularly to meet the needs of the ever changing international economic and trade environments. The BOFT has been guiding and working with the Taiwan External Trade Development Council (TAITRA) in numerous trade promotion projects and activities both internationally and domestically. Having worked closely with TAITRA for many decades, BOFT continues to commission TAITRA for various critical government projects relating to business, trade and investments, while promoting Taiwan internationally.

Taiwan External Trade Development Council (TAITRA)

Founded in 1970 to help promote foreign trade, the Taiwan External Trade Development Council (TAITRA) is the foremost non-profit, semi-governmental trade promotion organization in Taiwan. Jointly sponsored by the government, industry associations, and several commercial organizations, TAITRA assists Taiwan businesses and manufacturers with reinforcing their international competitiveness and in coping with the challenges they face in foreign markets. TAITRA boasts a well-coordinated trade promotion and information network of over 1,300 international marketing specialists stationed throughout its Taipei headquarters and 68 branch offices worldwide. Together with its sister organizations, Taiwan Trade Center (TTC) and Taipei World Trade Center (TWTC), TAITRA has created a wealth of trade opportunities through effective promotion strategies.

Taiwan Excellence Pavilion

Taiwan Excellence Pavilion showcases the country's best innovations across industries. Located on 3F of Nangang Exhibition Center, the Pavilion is home to Taiwan Excellence Award winning products. Visiting Taiwan Excellence Pavilion is a visual feast for eyes and a physical experience for hands, combining technology with aesthetic design.

Brand Connotation

Items of Selection

Taiwan Excellence shows the competitive "Innovative Value" of Taiwanese product. Initiated by Ministry of Economic Affairs (MOEA), R.O.C. (Taiwan) in 1993 and implemented by Taiwan External Trade Development Council (TAITRA). The symbol of Taiwan Excellence honors Taiwan's most innovative products that generate tremendous value to worldwide users and it is recognized in 102 countries.

The symbol endures 4 brand connotation. The first icon "Energy" represents the vigor that distinguishes Taiwan's local industries. The second icon "Cooperation" represents the bonds of solidarity that unite Taiwan's manufacturers. The third icon "Perfect" represents Taiwan's manufacturers pursuit of

perfection and excellence. The fourth icon "Fulfillment" owes its origins to the traditional Taiwanese cultural affinity for "completeness" or "wholeness".

The Taiwan Excellence Awards selection has been implemented to select annually the most innovative products based on their excellence in criteria including R&D, Design, Quality, and International marketing. Taiwan Excellence Awards are given to products that stand out the selection and show competitive "Innovative Values". All award winning products are entitled to apply the Taiwan Excellence mark for marketing and promotional purpose. Award-winning companies are proud to embrace the mark as the highest honor of Taiwan national recognized and endorsed excellent products.

Medical-Grade Edge Server
USM-500

Equipped with an 8th Gen Intel® Core™ i7i5/i3 processor with 10 years longevity support and 4 x PCIe slots for integrating graphics and data capture cards to enable video recording and analysis, the USM-500 server is a cost-effective and scalable solution for edge-to-hospital information system (HIS) applications.

<http://www.advantech.com>

Edge SRP
USM-110W

USM-110W – an ITE-certified edge solution-ready platform (SRP) aimed at diverse clinical applications. Powered by an ARM® Cortex™-A17 quad-core processor with over 5 years longevity support and featuring a dual HDMI interface (supports up to 4K resolution) for video recording and analysis, USM-110W provides a cost-effective, scalable solution for edge-to-hospital information system (HIS) applications.

<http://www.advantech.com>

Real-time Locating System
LEO-T21-U00

LEO-T21 is a tag of Real-time Locating System sends a proprietary signal of Bluetooth Low Energy communication technology with a specific location engine. The accuracy/error value of the LEO-T21 is about 2~3 meters, and the battery life is up to 1 year (base on 1Hz). It has hidden button/switch on front and back for manual or automatic detection of status reports.

Super-Mini Industrial SDM (SATA Disk Module) SV250-7

1. Apacer's patented plug-and-play Multi-PowerPath supplies power through two power connectors (7+2) on the side or the 7th pin, allowing SSD to operate without external power supply.
2. High level of data security can be ensured with built-in AES-256 algorithm and compliance with TCG Opal 2.0 standards.
3. Built-in innovative SSD Widget and S.M.A.R.T functions that monitor SSD's health-related information.

PANTHER RAGE RGB DDR4 & PANTHER M.2 Heatspreader

1. Claw-shaped Heat Spreader Design for Excellent Performance.
2. Tailored for Intel® & AMD® Series Platforms.
3. Supports XMP 2.0.
4. High Frequency, Low Power Consumption & Low Latency.

Handheld Spectroradiometer AL210

1. Lower Luminance Range.
2. Fast Measurement.
3. Depolarization function.
4. Connection USB, GPIO, - Wi-Fi(AL210).
5. App Support(AL210).

Food Safety Grade Stainless Steel Panel PC FABS-810PH

1. EN-1672-2 international food safety grade certificate.
2. SUS316 stainless steel flat front panel with IP69K waterproof with FDA 21 CFR 177.2600 certificate, food-grade EC 84/500/EEC & MIL-A-46106 regulation; special frame design with perfect chamfered edge and Uninterruptible Power Supply.
3. Super Clear View technology has the best visual effect under different environmental conditions.

In-vehicle panel PC APC-3072

ROG Phone ZS600KL

VivoBook S14/S15 S430/S530

ZenBook Pro 15 UX580

1. Sunlight readable solution.
2. UPS power backup function.
3. Build-in communication modules include 4G LTE/3G/BT/WiFi/GPS.
4. Waterproof front function keypad.
5. Modular design.
6. IP66 waterproof speakers.
7. Diverse mounting ways.
8. ACC delay on/off control for system and data protection.
9. Engineering plastic chassis passes UL-94 flammability and UL746C anti-UV standard.

A new era of mobile gaming has dawned. An era where you take full control, where every sense is heightened, where every sinew is ready for the fray. With pure ROG gaming DNA at its core, ROG Phone breaks every rule to go where rivals fear to tread. This is a phone built to win: its world-beating, speed-binned 2.96GHz Qualcomm Snapdragon 845 Mobile Platform and Adreno 630 GPU deliver epic performance, its unique GameCool vapor-chamber cooling system — with detachable AeroActive Cooler for an extra cooling boost — sustains high frame rates in the heat of battle, and its no-compromise AMOLED display blends blazing speed with gorgeous visuals.

1. Bold new lightweight design with unique color combinations.
2. Innovative three-sided NanoEdge display and ErgoLift hinge.
3. Powered by up to 8th Generation Intel® Core™ i7 processor and NVIDIA® GeForce® MX150 graphics.

ZenBook Pro 15 features futuristic new ASUS ScreenPad™, cleverly combining a touchpad with an FHD touchscreen to offer novel ways of interacting intelligently with both Windows apps and dedicated programs called ScreenPad Apps. Pro 15 is powered by up to the latest Intel® Core™ i9 processor and NVIDIA® GeForce® GTX 1050 Ti graphics, and also supports Cortana and Amazon Alexa voice-powered services.

Video Soundbar VB342

4K Ultra HD Conferencing Camera CAM540

Full HD 6-Site Multipoint Video Conferencing System SVC500

Short Throw Interactive Projector UCWU365Hi

AVer is proud to announce our new VB342 Soundbar. The VB342 is a fully loaded 4K video conferencing soundbar that provides users with the best audio pick-up on the market and stunning video quality, and supports multiple communication software.

The CAM540 brings unconstrained 4K video communications to conferencing with a streamlined, stylish design and premium quality-of-life features. Designed to meet the needs of the modern meeting room, the CAM540 brings conference calls to life with its powerful 4K pan-tilt-zoom camera.

The Orbit Series SVC features a fluid, curved aesthetic, which supports a powerful 18X total zoom lens. With the Orbit Series integrated exclusive multipoint connection between Skype for Business, H.323, and SIP protocols allows users to easily and reliably connect with co-workers or business partners at their company around the world.

1. 20,000 hours lamp life time, allowing the customer user-friendly feeling.
2. Short throw projector make a shortest distance for installation. Avoid the light to eye straight.
3. Handle the Interactive function in Classroom, Meeting room with simple finger touch.

Digital Wireless Speaker CH-30W

1. Sound quality- Class D digital amplifier, high efficiency speaker and echo-tube diamond speaker provide the wonderful sound.
2. 2.4G WI-FI Microphone- Lightweight portable MIC, power on automatic frequency matching can provide teachers where to go where to use.
3. Easy installation- Diamond stylish appearance, two hooks design and installed on the top of the projector can let installer easy installation.

Bullet Network Camera IB9371-HT

VIVOTEK's IB9371-HT and IB9371-EHT are two brand-new professional H.265 high-efficiency outdoor bullet network cameras, offering 30 fps @ 3-Megapixel with outstanding image quality. Employing H.265 technology enables the cameras to provide higher and more efficient image compression rates than previous H.264 systems. In addition, VIVOTEK's sophisticated Smart Stream II Technology enables the cameras to optimize resolution for a desired object or area and therefore to maximize efficiency of bandwidth usage. Combining both H.265 and Smart Stream II, the IB9371-HT and IB9371-EHT can reduce bandwidth and storage consumption up to 80%* while maintaining image quality with the high standard.

Music Shell BEKER

Hooloop VR Souvenir Take Taiwan Home

Horus Diagnostic Set DEC 200

The Smartscooter is the first high-performance, zero emissions, connected two-wheeled electric vehicle on the market—but in many ways the bigger story today is actually the Gogoro Energy Network. The Gogoro Energy Network is a battery-swapping infrastructure that can be deployed across a city to give people access to portable power through battery vending machines called GoStations. The Smartscooter is the first to be integrated into the Gogoro Energy Network.

The waterproof music player MUSIC SHELL using the innovative bone conduction technology is a perfect companion for jogging, cycling or swimming without the need of an earphone.

VR Goggles + VR Tour. Two Great Gifts in One Box. The box unfolds into VR goggles. Through the goggles, you can choose your destination and teleport to fascinating attractions on virtual maps. In virtual maps, there are about fifty attractions of Taiwan, including Taipei 101, Taipei National Palace Museum, Sun Moon Lake, Jiufen, Taroko National Park, Luye Highland, and more. Get ready to go on a magic carpet ride through the many beautiful hot spots.

Horus Scope adopts a new optical design and innovative integration of mechanical and electronic system. This handheld digital camera has 5 Mega-pixel resolution, and the control unit has 3.5 inch full-color touch screen can display videos and still images in real-time. The shared fuselage product design can replace lens to perform different functions of inspection.

- A1 Plus: Feel its Appeal
1. Addressable RGB illuminated RGB base.
 2. Sirius Loop ASL120 Fans Included.
 3. 650W PSU 80 PLUS GOLD.
 4. Qi 1.2 10W C Fast Wireless Charging Panel.
 5. Quick-Release Tempered Glass Side Panel to Swap Components.

3DRuler is a 3D metrology application that quickly measures the dimension of the objects, regardless of the number of objects and their shape. Users can easily measure the dimension of an object with any hand-held device that has the 3DRuler application installed with a compatible 3D camera integrated.

Mobile UHF RFID Reader MR11A7

1. Capable of reading UHF RFID tags from 100 cm away.
2. Support up to 6,000 scans with a full battery charge.
3. Compact size, lightweight and Ergonomic Design.
4. Compatible with iOS, Android and Windows devices.

Wireless Ring Scanner MT500L

1. Wearable design enabling hands-free barcode scanning.
2. The smallest and lightest wireless ring barcode scanner.
3. Class1 laser and on screen barcode readability.
4. Ergonomic design with touch-activated scan button.

Mobile NFC Reader MR10A7

1. Compact size, lightweight and ergonomic design.
2. Support up to 10,000 scans with a full battery charge.
3. Compliant with ISO 14443A/B and ISO 15693 standard.
4. Industrial protection of IP55 and 1.5M drop resistance.

GS65 Stealth Thin Gaming Laptop GS65

The GS65 Stealth Thin is the world's first gaming laptop to feature 144 Hz display with 4.9mm thin bezel design, achieving a stunning 82% screen-to-body ratio. Packing advanced features set in the smallest dimension possible with outstanding golden diamond-cutting design, the MSI GS65 Stealth Thin brings gaming laptop into a new stylish gaming era.

Micro-Star International Company Limited

CviLux Corporation

Ultra slim laptop PS42

The eye-catching PS42 comes with incredibly slim skeleton, mere 1.19 kg in weight and 15.9mm in height, while features an amazing 10+ hours battery life. The thin bezel along the display plays an important role in achieving such portable form factor. While been extremely thin, the PS42 still manages to pack much within: fingerprint sensor for security and performance in an unprecedented chassis.

Parking Sensor P01/ P02

1. 100% Accuracy tested by SGS Lab.
2. 5 seconds identifying Tailing-parking to Self-ticketing automation.
3. SGS tested IP68 grade.
4. 3 years battery life 38AH ultra large battery capacity.
5. 5 minutes installing one sensor. No calibration required.
6. 88% antenna performance max patent-designed for 4G LTE.
7. Supports 700/900/1800MHz wide bands.
8. Supports Firmware and Configuration Remotely Upgrade(FOTA/COTA).

Smart Air Purifier FHH106

1. The PM2.5 sensor filters the ambient air by releasing 16 million anions to remove dust, sterilize and purify the indoor air.
2. Double-turbine water-washing air purification can inhale dirt into the air purifier.
3. Automatically stop when dump or anhydrous.
4. Touch panel displays the air quality with corresponding light color, and the switch function control supports APPLE HomeKit.

Smart Lightbulb Socket FHH108

1. Remote Control From Anywhere.
2. Hi! Siri. Control Appliances With Your Voice.
3. Customize Your Schedule.
4. Easy Control Many Appliances.
5. Set Up Your Favourite Scene.
6. Works with Apple HomeKit.
7. Customize a location-based schedule.
8. Stylish and Perfect For Your Home.
9. Automatic Power-Off Protection.
10. Safety Certification and One-Year Limited Warranty.

Stunning HDR performance, HDR10, BT2020 compatible Optoma PureMotion Technology. Built-in Media Player, and Wifi Display support Full 3D and +10% Vertical lens shift.

Industrial Flat-type Smart Router with Color Touch LCD Screen WGR-500-4PV

PLANET Industrial Flat-type Smart Router with Color Touch LCD Screen is an unique all-in-one gateway offering powerful security and L2/L4 switching functions, intuitive touch LCD and smart AP control for IoT/IIoT applications. It manages 20 wireless APs via the touch LCD panel and web GUI in real time. The intelligent PoE management functions also enhances the energy saving of the network.

Color Touch LCD 24-Port PoE+ Wireless LAN Managed Switch with 40G Fiber Uplink WS-2864PVR

PLANET Color Touch LCD 24-Port PoE+ Wireless LAN Managed Switch with 40G Fiber Uplink brings an energy-saving wireless network by offering Smart AP Control, Intelligent PoE, and intuitive touch panel. It greatly promotes management efficiency of Ethernet networking and PoE PD, such as Wireless AP, for networks of SMEs, hotels, communities, and other public areas.

ENNOLIFE HCA-TE-100

Self-service payment kiosk KS-1130

Black Box

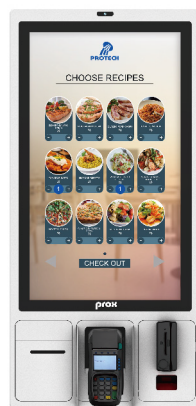

All in One 10" retail POS solution tPOS Series

1. Multi-analytes measurement: 15 items at a single run.
2. Low volume: 60µL of fingertip blood is needed.
3. Fast respond time: 15 minutes to obtain the result.
4. Multi-applications: biomedical, food safety and environmental detection.

1. Improve operating efficiency with large touch screen shows variety of options in one screen.
2. Easy to use by visualizing the consumer behaviors with instinct operation.

RCE Black Box is one and only battery monitoring device with Bluetooth. Black Box not only detects voltage, current and temperature, but also has anti-theft mode, static-current detection and cut-off mode. It can go with lead-acid battery or lithium iron battery. It is easy to install on the negative pole. When switch to cut-off mode it ensures battery staying at the minimum electricity consumption.

1. All in One 10" retail POS solution, a fully-functional one, support MSR, RFID, FP, scanner and printer plus.
2. tPOS series comes in various docking configuration to match the different needs of business, such as self-service store, retail and hospitality industries.
3. Won the 2019 Taiwan Excellence Award and Reddot Award, 2018 Golden Pin Design Award and COMPUTEX TAIPEI design & innovation Awards.

Smart Ignition Power Vehicle Computer iV12

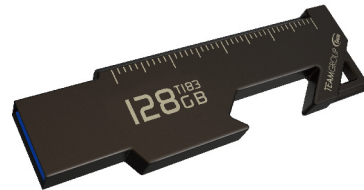

1. iV12 intelligent vehicle computer supports IP66-rated design with 5M3 certification.
2. With the low voltage protection, the iV12 will automatically shut down if it detects a low voltage output, preventing the risk of losing data.
3. With high system configurability, connectivity, and interface diversity allows the terminals to be easily customized to support specification application requirements.

Tool Flash Drive T183

In addition to high-speed USB drive's storage function, it also has bottle opener, ruler, keychain and can cut through a carton tape. Moreover, the T183 Tool USB drive is magnetic, which can be easily placed on a visible iron surface (office cubicle walls/refrigerator). The transfer speed and read speed per second can reach above 80MB/s.

DELTA RGB SSD DELTA RGB SSD (5V)

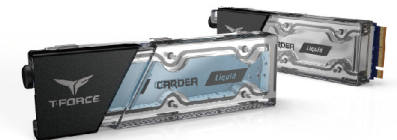

T-FORCE DELTA RGB SSD(5V) has the largest RGB luminous area. The light effects can be synchronized with the motherboard, and also present a magnificent mix with water flow light effect to maximize the variability of color. The maximum read speed is up to 560MB per second, booting or loading games only takes few seconds. Using SATA III 6Gbps interface and capacities available in 250GB, 500GB, etc.

CAREDEA Liquid M.2 PCIe SSD

The ultra-fast liquid cooling solid state drive has Taiwan utility model patent design for its water-cooling module. The transparent crystal-clear case provides human factor application for gamers to change the water-cooling liquid. With the conduction of heat sink, the rolling and flowing effects of the transparent water droplets can be seen through. This product is fit for continuous and high intensity use. With high performance superconductivity – thermally conductive adhesive and liquid cooling, thermal energy can be transferred instantaneously, making heat dissipation more evenly and accelerating the heat dissipation. The extreme speed performance of the latest PCI-e interface (Read speed up to 3400 MB/s) can improve the speed and performance of the overall system.

In-Cell Touch OLED Display

In-Cell Touch Series

1. An In-Cell Touch display has the touch layer embedded within the panel itself.
2. There's no need to laminate a separate touch layer.
3. Much lower cost for the touch function.

The PMOLED display is available in varying sizes and easier to customize. Those great features make it popular and as the top embedded solution suitable for portable, medical, industrial, and smart appliances already.

<https://www.facebook.com/OLEDMAKER/>

Transparent OLED

Transparent OLED series

1. T-OLED combines high-transparent electrodes and high-transparent insulating barrier designs.
2. The Optical simulation design helps the average transmittance of the panel to reach 50% to 65%.
3. New high-efficiency multicolor device and optimized layout design could obtain uniform transmittance and high brightness panel to supply various applications.

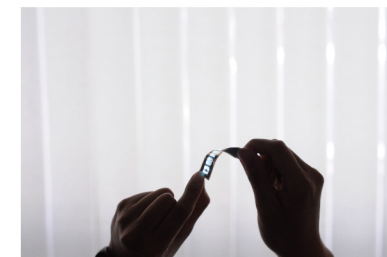

<https://www.facebook.com/OLEDMAKER/>

Bendable OLED

Bendable Series

1. The thickness is thinner than 0.3 mm which can be used on extremely thin devices.
2. Bendable PMOLED display panels have a maximum curvature can pass the radius 40mm.
3. Micro-sized, light, ultra-thin, bright and providing wide viewing angles.

Multy AC2100 / Multy U WSR30

1. Up and running in minutes - Install Multy with its simple mobile app to get your Internet going without the technical headaches.
2. Vast WiFi coverage - Multy units can be daisy chained to bring reliable WiFi connectivity to all corners of your home.
3. Speak to your WiFi network - Control Multy with simple voice command with the help of Amazon's Alexa™.

<http://www.zyxel.com/homepage.shtml>

Multy X AC3000/ Multy X WSQ50

1. Covers up to 464 m² with the Multy X router and Multy X Satellite connections.
2. Tri-Band Mesh technology - Provides optimum WiFi strength throughout your home.
3. A single WiFi network name and password eliminates the need for multiple sign-ins that are normally needed on networks with range extenders.
4. Compatible with Amazon Alexa - Use voice commands to easily control your home network.

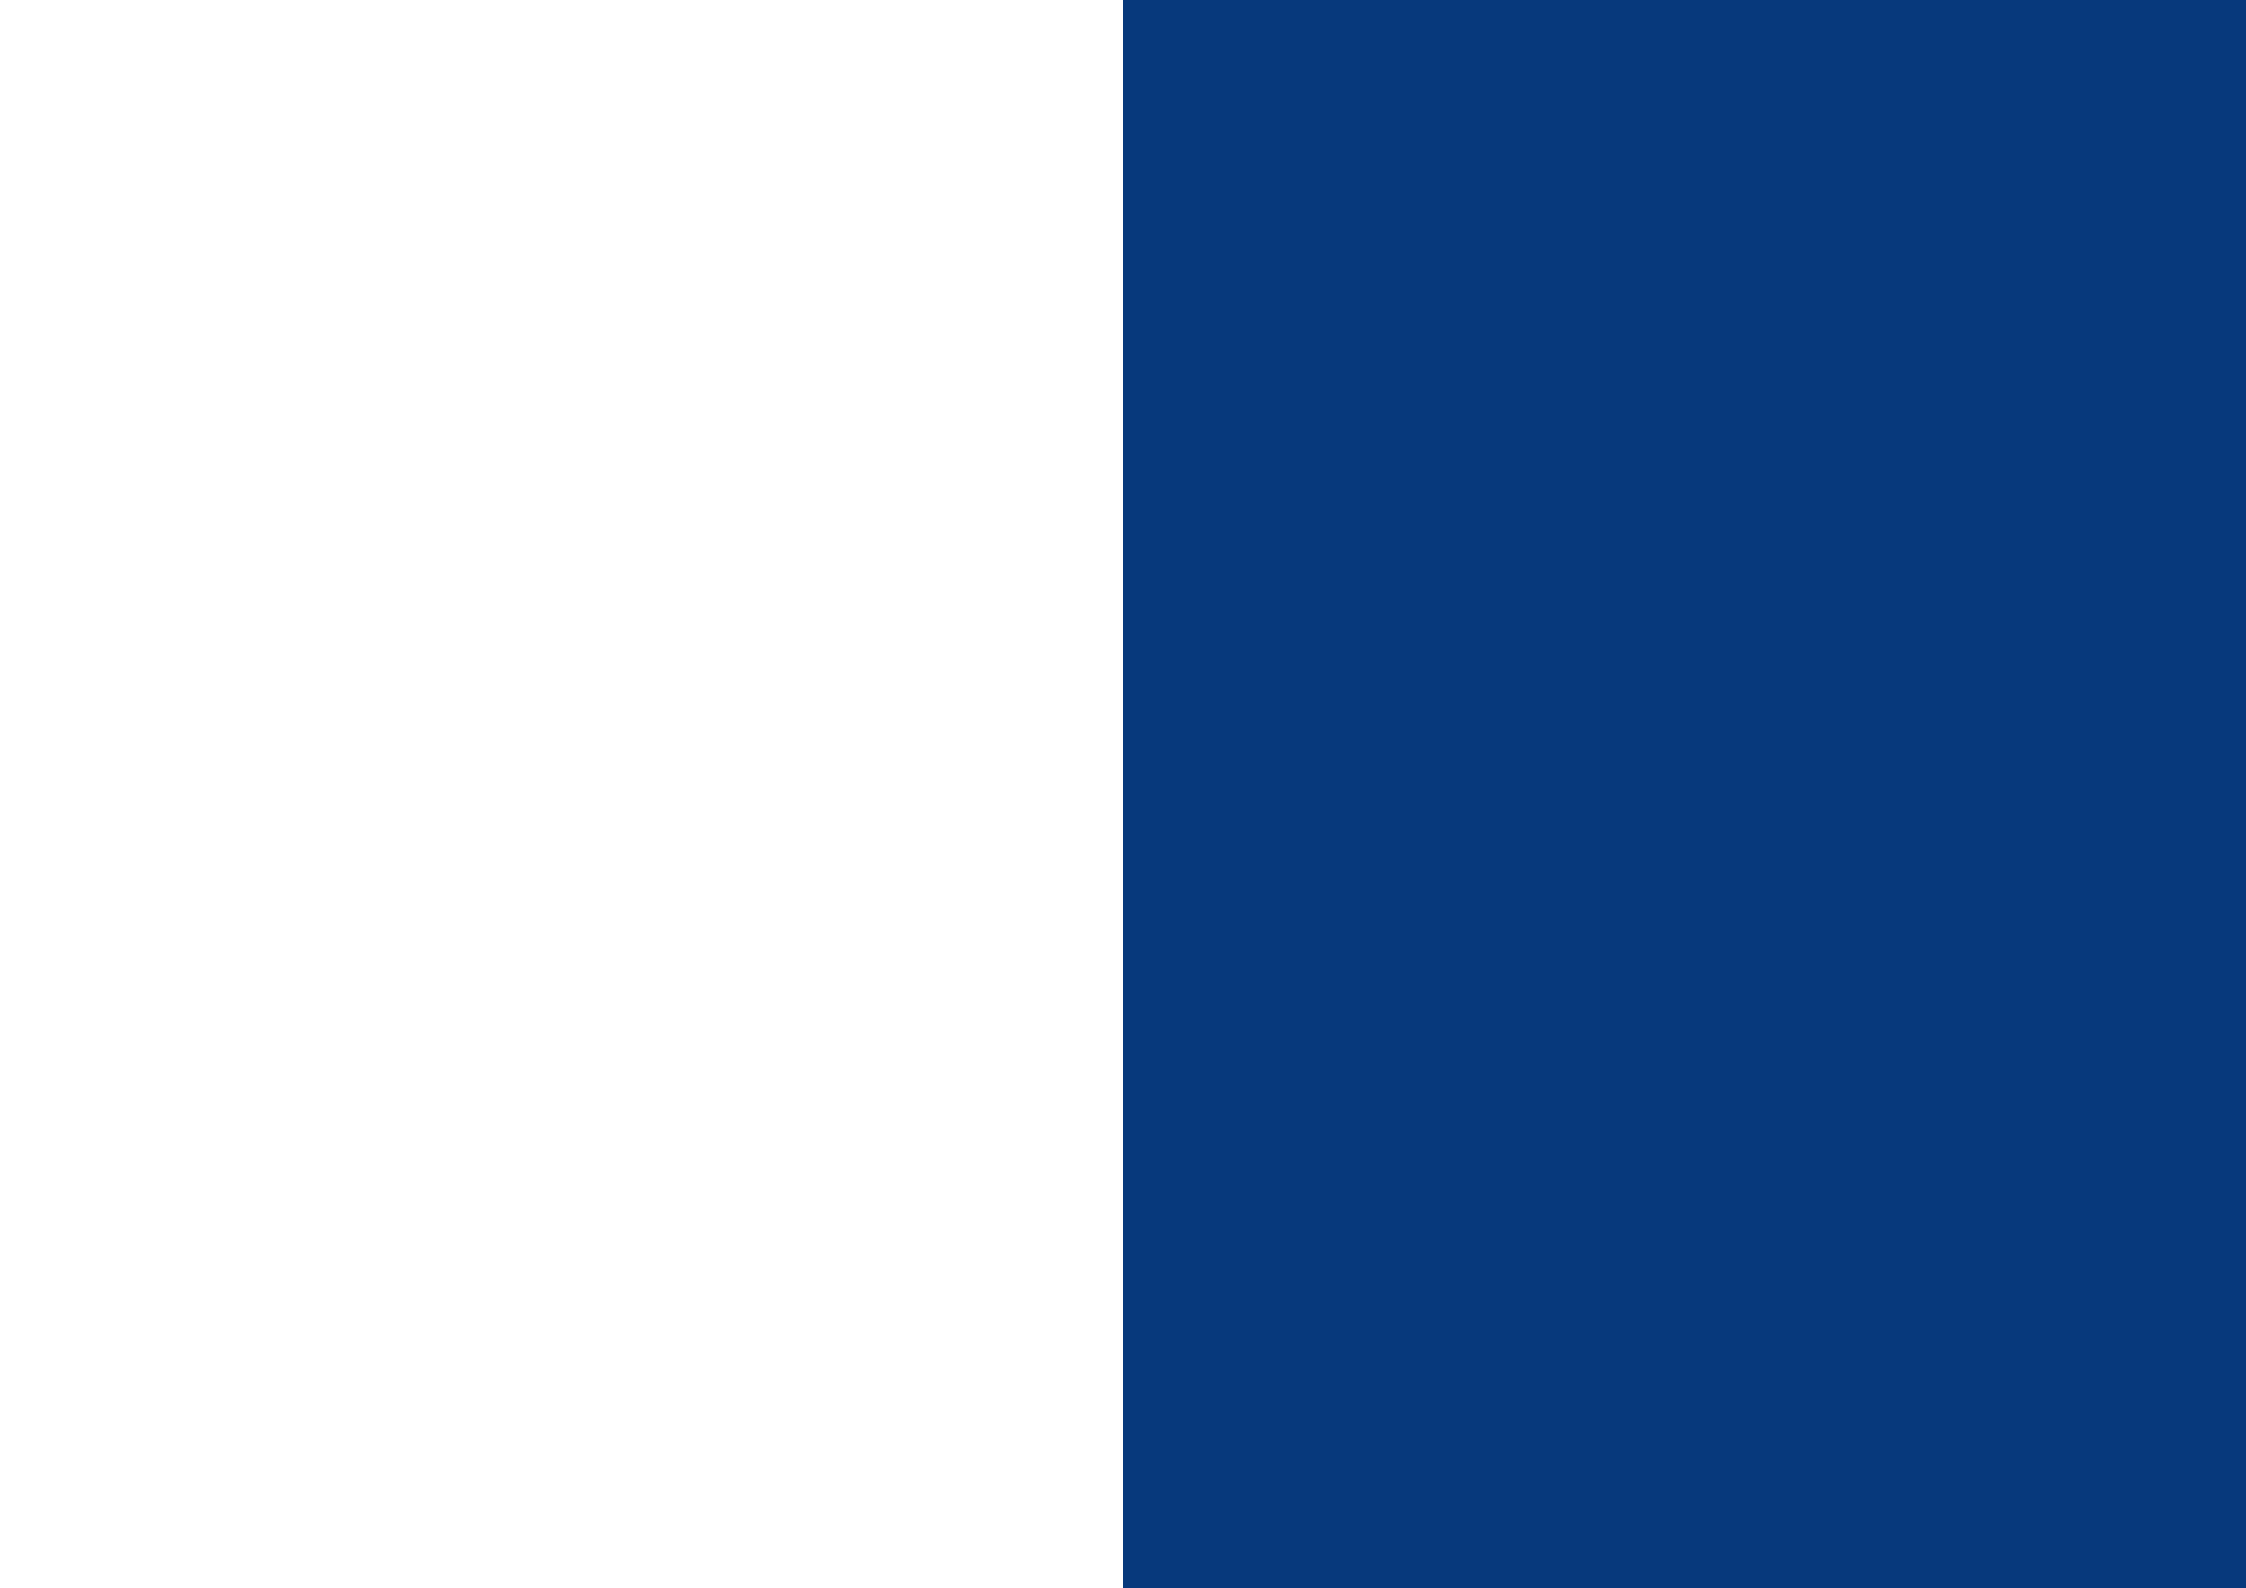

<http://www.zyxel.com/homepage.shtml>

Multy Mini Dual-Band WiFi System Add-on WSQ20

1. Covers up to 4,500 square feet with router and satellite connections.
2. 3x3 MIMO antenna design connects at maximum wireless speed on your Multy X system.
3. Qualcomm Quick Charge 3.0 support - provides faster charges for your mobile devices.
4. Easily create a separate, secure WiFi network to entertain visitors and guests.
