Industrial Development

Leading Industries

Bicycles

Owns the highest market share in Germany, Nederland and UK

IC Foundry

Taiwan's IC Foundry is the world's largest

Yachts

The world's 4th largest and Asia's biggest yacht maker in 2016

Textile

Functional Textiles hold a 70% market share worldwide

Sports and Leisure

80% of world's golf club heads are produced by Taiwanese companies.

Healthcare

34.5% of world's electric wheelchair or electric scooter are produced by Taiwanese companies

Orchids

Advanced breeding methods are continued innovation has increased the export amount of Taiwan's moth orchids up to US 173 million in 2016.

Intellectual Advantage

42.62%
University or Above

28.45%
Senior High School

11.82%
Junior High School

14.4%
Primary School

A total of 11 Taiwanese universities have made the world's list for the top 500 universities

Industrials Clusters

Machine Tool Industry

Taiwan is one of the top 4 exporting countries for machine tools.

Sports & Leisure Goods Industry

Taiwan's sporting goods sector exports US \$685.7 million annually.

Orchid Industry

Perfect growing environment, combined with advancements in breeding.

Green Energy Industry

Development of a complete photovoltaic industrial cluster that encompasses the up, mid, and downstream segments of the supply chain.

Bicycle Industry

The A-Team (a team comprised of 20 bike and parts companies) has created high quality and innovative new products.

Biomedicine

Innovative medical devices and new marketing models that drive the formation of a complete product and service ecosystem.

Automobile Parts and Accessories Industry

The auto parts industry has the capability of providing original equipment (OE) and after market (AM) service to global supply chain. A comprehensive, highly efficient subcontractor network makes up a central-to-satellite plant system within which individual parts manufacturers specialize in specific areas.

ICT Industry

These clusters have helped make Taiwan the "go-to" location for procurement and design.

Yachts Industry

The success of Taiwan's yachts rests on three main points: high building skills, superior craftsmanship and customized solutions. Combined with the geographical advantage of Kaohsiung City.

Fastener Industry

Production accounts for 30% of all fasteners internationally and is exported to over 140 countries.

World Rankings

Taiwan is ranked **3rd** in the world in terms of "State of Cluster Development" in The World Economic Forum (WEF)'s **"Global Competitiveness Report 2016-2017"**

Taiwan is ranked **14th** in the **2016 Annual World Competitiveness Yearbook** and **3rd** in the Asia-Pacific region

Taiwan is ranked **11th** in the **"Doing Business 2017"** survey by the World Bank.

Culture in Taiwan

Lantern Festival

The sky lanterns of the festival carry the prayers and vows of the people. A great event that reflects the festive Taiwanese spirit to the world.

Dragon Boat Festival

An annual tradition that is also 1 of Taiwan's 3 major holidays. The holiday holds dragon boat races and offers glutinous rice dumplings, called zongzi.

Mid-Autumn Festival

This festival includes eating moon cakes, which symbolize unity and togetherness. People also enjoy pleasant strolls under the full moon and eating the seasonal fruit, pomelos.

Taiwan Excellence

The symbol of Taiwan Excellence honors Taiwan's most innovative products that provide tremendous value to users worldwide. All products carrying this symbol have been selected for specific Taiwan Excellence Awards based on their excellence in R&D, design, quality, marketing, and made in Taiwan. Initiated by the Ministry of Economic Affairs (MOEA), R.O.C. in 1992, the symbol of Taiwan Excellence is recognized by 102 countries.

Sponsored by Bureau Of Foreign Trade, MOEA

The Bureau of Foreign Trade (BOFT) under the Ministry of Economic Affairs (MOEA), R.O.C. is responsible for implementing policies and regulations governing foreign trade and economic cooperation. Established in January 1969, the BOFT's role and position have been adjusted regularly to meet the needs of the ever changing international economic and trade environments. The BOFT has been guiding and working with the Taiwan External Trade Development Council (TAITRA) in numerous promotional trade projects and activities both internationally and domestically. Having worked closely with TAITRA for many decades, the BOFT continues to commission TAITRA for various critical government projects relating to business, trade and investment, while promoting Taiwan internationally.

Organized by Taiwan External Trade Development Council (TAITRA)

Founded in 1970 to help promote foreign trade, the Taiwan External Trade Development Council (TAITRA) is the foremost non-profit, semi-governmental trade promotion organization in Taiwan. Jointly sponsored by the government, industry associations, and several commercial organizations, TAITRA assists Taiwanese businesses and manufacturers with reinforcing their international competitiveness and in coping with the challenges they face in foreign markets. TAITRA boasts a well-coordinated trade promotion and information network of over 1,200 international marketing specialists stationed throughout its Taipei headquarters and 50 overseas offices worldwide. Together with its sister organizations, the Taiwan Trade Center (TTC) and the Taipei World Trade Center (TWTC), TAITRA has created a wealth of trade opportunities through effective promotion strategies.

Taiwan Excellence Pavilion

Located at the south entrance of the Taipei Fine Arts Museum, the Pavilion is home to Taiwan Excellence Award winning products. Visiting Taiwan Excellence Pavilion is a visual feast for the eye and a physical experience for the hands, combining technology with aesthetic design.

161, Sec. 3, Zhongshan N. Rd.,
South entrance of the Taipei Fine Arts Museum

Tue. Sun. 9:30-17:30 Sat. 9:30-20:30 Mon. Closed
(02) 2585-1659 #12

What is Taiwan Excellence?

In order to encourage Taiwanese manufacturers to enhance their total capability and to incorporate innovation and added value into their products, the Ministry of Economic Affairs (MOEA) has launched a large scale groundbreaking and forward-looking national project, The Taiwan Industry Image Enhancement Project (IEP project). The government has entrusted the Taiwan External Trade Development Council (TAITRA) to carry out the project.

Under the scheme of work, the Taiwan Excellence selection has been implemented to select annually the most innovative products based on their excellence in criteria including research and development, design, quality, and international marketing. Taiwan Excellence Awards are given to products that stand out the selection and show

competitive "Innovative Values". All award winning products are entitled to apply the Taiwan Excellence mark for marketing and promotional purpose. Companies that win the award are proud to take advantage of the mark as it represents the highest honor of Taiwan national recognized and endorsed excellent products.

The IEP provides both B2B and B2C focused companies the perfect platform for value-added promotion through cross-platform media-links, O2O(online to offline), and a series of integrated marketing communication activities, which included exhibition marketing, experiential marketing, channel marketing, media relations, advertising, celebrity endorsement, brand agency fairs and digital marketing among other related activities.

International Talent Exchange

Taiwan scholarship program

The Ministry of Education has formulated the Taiwan Scholarship Program Directions to encourage outstanding international students to undertake degree studies in Taiwan to familiarize themselves with the academic environment in Taiwan and promote communication, understanding, and friendship between Taiwan and the international community.

MOFA Taiwan fellowship

The Taiwan Fellowship is established by the Ministry of Foreign Affairs (MOFA) to award foreign experts and scholars interested in researches related to Taiwan, cross-strait relations, mainland China, Asia-Pacific region and Chinese studies to conduct advanced research at universities or academic institutions in Taiwan. The Taiwan Fellowship, echoing the APEC Scholarship Initiative, provides 12 Chinese Taipei APEC Fellowship openings per year exclusively for scholars and experts from developing APEC economies. The application process will begin in May 2017, and recipients will begin their research in Taiwan in January 2018.

Mobile Inspection Assistant

G60

The G60, Mobile Inspection Assistant, integrates thermal imager, Push-to-Talk radio, and Smartphone into a 4G industrial mobile computer, reducing the number of devices carried while conducting an electrical inspection. Dual lens thermal camera and laser positioning enable accurate recording of temperature changes in electrical equipment. Anomalies can be timely discovered and dealt with on-site. It is ruggedized with the IP67 rating. The built-in SOS button can be used to call for help in case of an emergency. The 5" rugged back-lit touch screen allows the user to easily operate the device in direct sunlight and wearing gloves.

Renewable Energy Industrial 802.3at PoE Managed Ethernet Switch

BSP-360

Based on its green technology, PLANET BSP-360 can be charged by the inexhaustible and natural source of energy, such as solar, wind and hydroelectric power to conserve energy so as to economically power these remote IP cameras and wireless APs, especially used for such expansive applications as dams, forests, deserts, national parks, nature/animal protection areas and highways.

Robelf

Robelf1.0

The biggest distinguishing factor of Robelf is that it is a family-oriented smart robot primarily aimed at servicing the elderly and children. Its patented technology enables its head to swivel 90 degrees vertically and comfortably adjust to the user's height either standing or sitting. Robelf's voice detection and facial recognition functions enables it to receive voice commands for video playback, and the embedded noise canceling microphone lets it easily locate and communicate with the person speaking to it, even for the elderly and children that are unfamiliar around technology.
